

| DIMENSION                                                                                          | MEASURE |                 |
|----------------------------------------------------------------------------------------------------|---------|-----------------|
| OVERALL CABINET                                                                                    |         |                 |
| MIN Height of the wall cabinet niche, including all required space for installation or ventilation | 860     | mm              |
| MIN Height of the tall cabinet niche, including all required space for installation or ventilation | 0       | mm              |
| MIN Height of the base cabinet niche, including all required space for installation or ventilation | 860     | mm              |
| MAX Height of the wall cabinet niche, including all required space for installation or ventilation | 890     | mm              |
| MAX Height of the tall cabinet niche, including all required space for installation or ventilation | 0       | mm              |
| MAX Height of the base cabinet niche, including all required space for installation or ventilation | 890     | mm              |
| MIN Width of the wall cabinet niche, including all required space for installation or ventilation  | 600     | mm              |
| MIN Width of the tall cabinet niche, including all required space for installation or ventilation  | 0       | mm              |
| MIN Width of the base cabinet niche, including all required space for installation or ventilation  | 600     | mm              |
| MAX Width of the wall cabinet niche, including all required space for installation or ventilation  | 600     | mm              |
| MAX Width of the tall cabinet niche, including all required space for installation or ventilation  | 0       | mm              |
| MAX Width of the base cabinet niche, including all required space for installation or ventilation  | 601     | mm              |
| MIN Depth of the wall cabinet niche, including all required space for installation or ventilation  | 570     | mm              |
| MIN Depth of the tall cabinet niche, including all required space for installation or ventilation  | 0       | mm              |
| MIN Depth of the base cabinet niche, including all required space for installation or ventilation  | 570     | mm              |
| Space in front, which is required to install bottom trim                                           | 0       | mm              |
| Indicates whether a ventilation opening is needed or not. Default is "N"                           | No      |                 |
| WALL CABINET (vent-shaft incoming)                                                                 |         |                 |
| Indicates the position of the freespace for the inbound airflow (wall cabinet)                     | Rear    |                 |
| Minimum space or inbound ventilation (wall cabinet)                                                | 0       | mm              |
| Minimum area for inbound ventilation cavity (wall cabinet)                                         | 0       | cm <sup>2</sup> |
| WALL CABINET (vent-shaft outgoing)                                                                 |         |                 |
| Indicates the position of the freespace for the outbound airflow (wall cabinet)                    | Rear    |                 |
| Minimum space or outbound ventilation (wall cabinet)                                               | 0       | mm              |
| Minimum area for outbound ventilation cavity (wall cabinet)                                        | 0       | cm <sup>2</sup> |
| TALL CABINET (vent-shaft incoming)                                                                 |         |                 |
| Indicates the position of the freespace for the inbound airflow (tall cabinet)                     | Rear    |                 |
| Minimum space for inbound ventilation (tall cabinet)                                               | 0       | mm              |
| Minimum area for inbound ventilation cavity (tall cabinet)                                         | 0       | cm <sup>2</sup> |
| TALL CABINET (vent-shaft outgoing)                                                                 |         |                 |
| Indicates the position of the freespace for the outbound airflow (tall cabinet)                    | Rear    |                 |
| Minimum space for outbound ventilation (tall cabinet)                                              | 0       | mm              |
| Minimum area for outbound ventilation cavity (tall cabinet)                                        | 0       | cm <sup>2</sup> |
| BASE CABINET (vent-shaft incoming)                                                                 |         |                 |
| Indicates the position of the freespace for the inbound airflow (base cabinet)                     | Rear    |                 |
| Minimum space for inbound ventilation (base cabinet)                                               | 0       | mm              |
| Minimum area for inbound ventilation cavity (base cabinet)                                         | 0       | cm <sup>2</sup> |
| BASE CABINET (vent-shaft outgoing)                                                                 |         |                 |
| Indicates the position of the freespace for the outbound airflow (base cabinet)                    | Rear    |                 |
| Minimum space for outbound ventilation (base cabinet)                                              | 0       | mm              |
| Minimum area for outbound ventilation cavity (base cabinet)                                        | 0       | cm <sup>2</sup> |

| DIMENSION                                                                                                                       | MEASURE |    |
|---------------------------------------------------------------------------------------------------------------------------------|---------|----|
| APPLIANCE                                                                                                                       |         |    |
| Height of the front                                                                                                             | 720     | mm |
| Width of the front                                                                                                              | 595     | mm |
| Depth of the front                                                                                                              | 25      | mm |
| Maximum depth all protruding elements, e.g. handles, controls                                                                   | 39      | mm |
| Lateral clearance between front edge and most protruding elements which avoid to open a neighbour front more than 90 degrees    | 61      | mm |
| Projection of front in relation to housing of appliance                                                                         | 15      | mm |
| Projection of front in relation to bearing area of the appliance. Taken at minimum height of appliance, if height is adjustable | 2       | mm |
| When product panel is missing, set to 0                                                                                         | 115     | mm |
| Space in front, which is required to guarantee full operability. The most protruding part gives this dimension                  | 325     | mm |
| Height from bearing area of appliances and lower handle                                                                         | 312     | mm |
| Frontal handle thickness                                                                                                        | 21      | mm |
| Frontal handle width                                                                                                            | 474     | mm |
| MIN Height of the product body                                                                                                  | 845     | mm |
| MAX Height of the product body                                                                                                  | 875     | mm |
| Width of the product body                                                                                                       | 556     | mm |
| Depth of the product body                                                                                                       | 550     | mm |
| Full depth of product excluding protruding interface elements                                                                   | 575     | mm |
| MIN depth between plinth return and front                                                                                       | 57      | mm |
| MAX depth between plinth return and front                                                                                       | 57      | mm |
| Height MIN Plinth return. This dimension is taken by minimum appliance height                                                   | 140     | mm |
| Height MAX Plinth return. This dimension is taken at maximum appliance height                                                   | 170     | mm |
| Appliance can be used as base for other appliances from the same manufacturer. Default is "No"                                  | No      |    |
| Appliance Flap door                                                                                                             |         |    |
| Projection of the opened flap in relation to bearing area                                                                       | 5       | mm |
| Maximum angle when flap door is opened totally                                                                                  | 89      | mm |
| Appliance Side swing door                                                                                                       |         |    |
| Lateral projection of front incl. controls when door is opened totally. At the side where the hinge is mounted                  | 0       | mm |
| Lateral projection of opened front at the side where the hinge is fixed                                                         | 0       | mm |
| Maximum angle when door is opened totally                                                                                       | 0       | mm |
| Appliance other                                                                                                                 |         |    |
| Depth from front end of the niche to the front end of the freespace of the retrace                                              | 65      | mm |
| Height from niche to bottom end of freespace for the retrace                                                                    | 685     | mm |
