### 6th Sense Induction

The revolutionary Whirlpool induction oven has an induction shelf, which directly heats your food in the dedicated induction tray for extremely efficient and precise cooking. It works using a magnetic field created within the induction shelf, which works directly with the induction tray to heat your food. Food is heated directly from the induction shelf, across the entire base of the induction tray allowing for even cooking and reduces energy waste. The grill above also works to brown food from above. Induction oven cooking saves you up to 50% in energy and time, compared to a regular Whirlpool oven, which means saving you money!

### 6th Sense Fusion Ambient

Ready-to-use recipes. Select one of 30 pre-set recipes, and your oven will automatically adjust cooking, temperature and time settings, while continually monitoring your dishes, to ensure perfect results.

### Ready2cook

No pre-heating required. The Ready2Cook function uses a powerful convection system to quickly reach the right temperature, and completely eliminate the need for pre-heating.

### Ixelium

Long lasting beauty. The revolutionary iXelium nanotechnology treatment protects your oven from scratches and ensures a perfect shine, always. And it's easy to clean: all you need is water and a soft cloth.

### Soft closing

Slow-motion closing. Thanks to slow-closing hinges, the oven door shuts effortlessly, with a soft and silent motion.

### Easy to clean

Easy to clean. To clean your oven, simply use warm water and a soft cloth, no need to use harsh chemicals or cleaners.
