- Simmering function
- Melting function
- 60 cm hob
- Timer
- Easy Replacement
- Black glass finishing with Clean Protect system
- 4 Boosters
- 4 Plate on Indicator
- Total power declared: 7.2 kW

Whirlpool induction glass-ceramic hob - WF S3660 CPNE

4 induction rings. flexiCook zone technology, allowing you to combine multiple burners into a single cooking zone, for larger pots and pans. Intuitive slider, for effortless control of your appliance settings. This Whirlpool induction glass-ceramic Hob features: An elegant technology, that heats the pan, not the hob, reducing energy dispersion and providing perfect cooking results. Electric power supply.

Direct access with sliders

A new user interface with dedicated sliders for each cooking zone. Each slider is mapped to the corresponding position on the hob surface to make it incredibly intuitive to use.

Induction technology

Faster, energy-efficient cooking. Induction technology heats the pan, not the hob, reducing energy dispersion by 10%, and providing perfect cooking results.

FlexiSide

Take the space you need by combining two cooking zones into one.

French Plaque

Chef Control is an innovative cooking tool that allows you to cook without having to adjust temperatures via the hob. Simply shift the pots around on the cooking surface and enjoy delicious meals!

Flexible Cooking

Automatic power settings. Select the cooking function on your touch display and your hob will automatically adjust the power level accordingly.

Melting

Perfect low-heat cooking. The Melting function allows you to cook at very low temperatures, providing you with the ideal solution for melting chocolate, butter or for cooking light, delicate sauces.

Filo installation

Our cooktops are designed to be both beautiful and functional. The outstanding Filo Design of our integrated cooktops makes cleaning easier than ever before.

ChefControl

Divides the hob into three or four cooking zones, and activates them simultaneously at a pre-set power level. Pans can be moved from one area to another without interacting with the user interface, so dishes can continue cooking at different temperatures for added flexibility.
