Safety instructions, Use and Care and Installation guide

SAFETY INSTRUCTIONS

Before using the appliance, read these safety instructions. Keep them nearby for future reference.

These instructions and the appliance itself provide important safety warnings, to be observed at all times. The manufacturer declines any liability for failure to observe these safety instructions, for inappropriate use of the appliance or incorrect setting of controls.

⚠ Very young children (0-3 years) should be kept away from the appliance. Young children (3-8 years) should be kept away from the appliance unless continuously supervised. Children from 8 years old and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge can use this appliance only if they are supervised or have been given instructions on safe use and understand the hazards involved. Children must not play with the appliance. Cleaning and user maintenance must not be carried out by children without supervision.

⚠ **WARNING:** The appliance and its accessible parts become hot during use. Care should be taken to avoid touching heating elements. Children less than 8 years of age must be kept away unless continuously supervised.

⚠ Do not touch the oven during pyrolytic cycle (self cleaning) - risk of burns. Keep children and animals away during and after the pyrolytic cycle (until the room has been fully ventilated). Excess spillage, especially fats and oils, must be removed from the oven cavity before initiating the pyrolytic cycle. Do not leave any accessory or material within the oven cavity during the pyrolytic cycle.

⚠ If the oven is installed below a hob, make sure that all burners or electric hotplates are switched off during the pyrolytic cycle. - risk of burn.

⚠ Never leave the appliance unattended during food drying. If the appliance is suitable for probe usage, only use a temperature probe recommended for this oven - risk of fire.

⚠ Keep clothes or other flammable materials away from the appliance, until all the components have cooled down completely - risk of fire. Always be vigilant when cooking foods rich in fat, oil or when adding alcoholic beverages - risk of fire. Use oven gloves to remove pans and accessories. At the end of cooking, open the door with caution, allowing hot air or steam to escape gradually before accessing the cavity - risk of burns. Do not obstruct hot air vents at the front of the oven - risk of fire.

⚠ Exercise caution when the oven door is in the open or down position, to avoid hitting the door.

IMPORTANT TO BE READ AND OBSERVED

PERMITTED USE

⚠ **CAUTION:** The appliance is not intended to be operated by means of an external switching device, such as a timer, or separate remote controlled system.

⚠ This appliance is intended to be used in household and similar applications such as: staff kitchen areas in shops, offices and other working environments; farm houses; by clients in hotels, motels, bed & breakfast and other residential environments.

⚠ No other use is permitted (e.g. heating rooms).

⚠ This appliance is not for professional use. Do not use the appliance outdoors.

⚠ Do not store explosive or flammable substances (e.g. gasoline or aerosol cans) inside or near the appliance - risk of fire.

INSTALLATION

⚠ The appliance must be handled and installed by two or more persons - risk of injury. Use protective gloves to unpack and install - risk of cuts.

⚠ Installation, including water supply (if any) and electrical connections, and repairs must be carried out by a qualified technician. Do not repair or replace any part of the appliance unless specifically stated in the user manual. Keep children away from the installation site. After unpacking the appliance, make sure that it has not been damaged during transport. In the event of problems, contact the dealer or your nearest After-sales Service. Once installed, packaging waste (plastic, styrofoam parts etc.) must be stored out of reach of children - risk of suffocation. The appliance must be disconnected from the power supply before any installation operation - risk of electrical shock. During installation, make sure the appliance does not damage the power cable - risk of fire or electrical shock. Only activate the appliance when the installation has been completed.

⚠ Carry out all cabinet cutting works before fitting the appliance in the furniture and remove all wood chips and sawdust. Do not obstruct the minimum gap between the worktop and the upper edge of the oven - risk of burns.

Do not remove the oven from its polystyrene foam base until the time of installation.

⚠ After installation, the bottom of the appliance must no longer be accessible - risk of burn.

⚠ Do not install the appliance behind a decorative door - risk of fire.

ELECTRICAL WARNINGS

⚠ The rating plate is on the front edge of the oven (visible when the door is open).

⚠ It must be possible to disconnect the appliance from the power supply by unplugging it if plug

is accessible, or by a multi-pole switch installed upstream of the socket in accordance with the wiring rules and the appliance must be earthed in conformity with national electrical safety standards.

⚠ Do not use extension leads, multiple sockets or adapters. The electrical components must not be accessible to the user after installation. Do not use the appliance when you are wet or barefoot. Do not operate this appliance if it has a damaged power cable or plug, if it is not working properly, or if it has been damaged or dropped.

⚠ If the supply cord is damaged, it must be replaced with an identical one by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard - risk of electrical shock.

⚠ In case of replacement of power cable, contact an authorized service center.

CLEANING AND MAINTENANCE

⚠ **WARNING:** Ensure that the appliance is switched off and disconnected from the power supply before performing any maintenance operation; never use steam cleaning equipment - risk of electric shock.

⚠ Do not use harsh abrasive cleaners or metal scrapers to clean the door glass since they can scratch the surface, which may result in shattering of the glass.

⚠ Ensure the appliance is cooled down before any cleaning or maintenance. - risk of burn.

⚠ **WARNING:** Switch off the appliance before replacing the lamp - risk of electrical shock.

DISPOSAL OF PACKAGING MATERIALS

The packaging material is 100% recyclable and is marked with the recycle symbol . The various parts of the packaging must therefore be disposed of responsibly and in full compliance with local authority regulations governing waste disposal.

DISPOSAL OF HOUSEHOLD APPLIANCES

This appliance is manufactured with recyclable or reusable materials. Dispose of it in accordance with local waste disposal regulations. For further information on the treatment, recovery and recycling of household electrical appliances, contact your local authority, the collection service for household waste or the store where you purchased the appliance. This appliance is marked in compliance with European Directive 2012/19/EU, Waste Electrical and Electronic Equipment (WEEE). By ensuring this product is disposed of correctly, you will help prevent negative consequences for the environment and human health.

The  symbol on the product or on the accompanying documentation indicates that it should not be treated as domestic waste but must be taken to an appropriate collection center for the recycling of electrical and electronic equipment.

ENERGY SAVING TIPS

Only preheat the oven if specified in the cooking table or your recipe. Use dark lacquered or enameled baking trays as they absorb heat better. Food requiring prolonged cooking will continue to cook even once the oven is switched off.

Standard cycle (PYRO): which is suitable for cleaning a very dirty oven. Energy-saving cycle (PYRO EXPRESS/ECO) - only in some models - which consumes approximately 25% less energy than the standard cycle. Select it at regular intervals (after cooking meat on 2 or 3 consecutive occasions).

ECO DESIGN DECLARATION

This appliance meets the Eco Design requirements of European Regulations n.65/2014 and 66/2014 in conformity to the European standard EN 60350-.

DAILY REFERENCE GUIDE

THANK YOU FOR PURCHASING A WHIRLPOOL PRODUCT

To receive more comprehensive help and support, please register your product at www.whirlpool.eu/register

Before using the appliance carefully read the Health and Safety guide.

PRODUCT DESCRIPTION

1. Control panel
2. Fan
3. Circular heating element (not visible)
4. Shelf guides (the level is indicated on the front of the oven)
5. Door
6. Upper heating element/grill
7. Lamp
8. Identification plate (do not remove)
9. Lower heating element (not visible)

CONTROL PANEL DESCRIPTION

1. SELECTION KNOB

For switching the oven on by selecting a function. Turn to the "0" position to switch the oven off.

2. BACK

For returning to the previous screen. During cooking, allows settings to be changed.

3. STOP

For stopping the function that is currently active.

4. DISPLAY

5. START

For immediately starting a function.

6. CONFIRM

For confirming a selected function or a set value.

7. ADJUSTMENT KNOB

For scrolling through the menus and applying or changing settings.

Please note: The knobs are retractable. Press the knobs in the middle and they pop up.

ACCESSORIES

WIRE SHELF

Use to cook food or as a support for pans, cake tins and other ovenproof items of cookware

DRIP TRAY

Use as an oven tray for cooking meat, fish, vegetables, focaccia, etc. or position underneath the wire shelf to collect cooking juices.

BAKING TRAY

Use for cooking all bread and pastry products, but also for roasts, fish en papillote, etc.

SLIDING RUNNERS *

To facilitate inserting or removing accessories.

* Available only on certain models

The number and the type of accessories may vary depending on which model is purchased.

Other accessories can be purchased separately from the After-sales Service.

INSERTING THE WIRE SHELF AND OTHER ACCESSORIES

Insert the wire shelf horizontally by sliding it across the shelf guides, making sure that the side with the raised edge is facing upwards.

Other accessories, such as the drip tray and the baking tray, are inserted horizontally in the same way as the wire shelf.

REMOVING AND REFITTING THE SHELF GUIDES

- To remove the shelf guides, lift the guides up and then gently pull the lower part out of its seating: The shelf guides can now be removed.
- To refit the shelf guides, first fit them back into their upper seating. Keeping them held up, slide them into the cooking compartment, then lower them into position in the lower seating.

FITTING THE SLIDING RUNNERS (IF PRESENT)

Remove the shelf guides from the oven and remove the protective plastic from the sliding runners.

Fasten the upper clip of the runner to the shelf guide and slide it along as far as it will go. Lower the other clip into position. To secure the guide, press the lower portion of the clip firmly against the shelf guide. Make sure that the runners can move freely. Repeat these steps on the other shelf guide on the same level.

Please note: The sliding runners can be fitted on any level.

FUNCTIONS

0

OFF

To switch off the oven.

6th
sense

6th SENSE

These allow a fully automatic cooking for all types of food (Lasagna, Meat, Fish, Vegetables, Cakes & Pastries, Quiches, Bread, Pizza).

To get the best from this function, follow the indications on the relative cooking table.

CONVENTIONAL

For cooking any kind of dish on one shelf only.

FORCED AIR

For cooking different foods that require the same cooking temperature on several shelves (maximum three) at the same time. This function can be used to cook different foods without odours being transferred from one food to another.

COOK 4 FUNCTIONS

For cooking different foods that require the same cooking temperature on four levels at the same time. This function can be used to cook cookies, tarts, round pizzas (also frozen) and to prepare a complete meal. Follow the cooking table to obtain the best results.

GRILL FUNCTIONS

GRILL

For grilling steaks, kebabs and sausages, cooking vegetables au gratin or toasting bread. When grilling meat, we recommend using a drip tray to collect the cooking juices: Position the tray on any of the levels below the wire shelf and add 500 ml of drinking water.

TURBO GRILL

For roasting large joints of meat (legs, roast beef, chicken). We recommend using a drip tray to collect the cooking juices: Position the pan on any of the levels below the wire shelf and add 500 ml of

drinking water. The turnspit (if provided) can be used with this function.

CONVECT BAKE

For cooking meat, baking cakes with fillings or roasting stuffed vegetables on one shelf only. This function uses gentle, intermittent air circulation to prevent food from drying out excessively.

SPECIALS

FAST PREHEAT

For preheating the oven quickly. Once preheating has finished, the oven will select the "Conventional" function automatically. Wait for preheating to finish before placing food in the oven.

FROZEN BAKE

The function automatically selects the ideal cooking temperature and mode for 5 different types of ready frozen food. The oven does not have to be preheated.

MAXI COOKING

For cooking large joints of meat (above 2.5 kg). It is advisable to turn the meat over during cooking, to obtain even browning on both sides. It is best to baste the meat every now and again to prevent it from drying out.

RISING

For optimal proving of sweet or savoury dough. To maintain the quality of proving, do not activate the function if the oven is still hot following a cooking cycle.

DEFROSTING

To speed up defrosting of food. Place food on the middle shelf. Leave food in its packaging to prevent it from drying out on the outside.

KEEP WARM

For keeping just-cooked food hot and crisp.

ECO FORCED AIR

For cooking stuffed roasting joints and fillets of meat on a single shelf. Food is prevented from drying out excessively by gentle, intermittent air circulation. When this ECO function is in use, the light will remain switched off during cooking. To use the ECO cycle and therefore optimise power consumption, the oven door should not be opened until the food is completely cooked.

AUTOMATIC OVEN CLEANING - PYRO

For eliminating cooking spatters using a cycle at very high temperature (approx. 500 °C). Two selfcleaning cycles are available: A complete cycle (Pyro) and a shorter cycle (Pyro Eco). We recommend using the quicker cycle at regular intervals and the complete cycle only when the oven is heavily soiled.

SETTINGS

For adjusting the oven settings.

When "ECO" mode is active the brightness of the display will be reduced to save energy and lamp switches off after 1 minute. It will be reactivated automatically whenever any of the buttons are pressed.

When "DEMO" is "On" all commands are active and menus available but the oven doesn't heat up. To deactivate this mode, access "DEMO" from "SETTINGS" menu and select "Off".

By selecting "FACTORY RESET", the product switches off and then it returns to first switch on. All settings will be deleted.

FAVORITE

For retrieving the list of 10 favorite functions.

FIRST TIME USE

1. SELECT THE LANGUAGE

You will need to set the language and the time when you switch on the appliance for the first time: "English" will show on the display.

Turn the *adjustment knob* to scroll through the list of available languages and select the one you require. Press ✓ to confirm your selection.

Please note: The language can subsequently be changed by selecting "LANGUAGE" in "SETTINGS" menu, available by turning the *selection knob* on .

2. SET THE POWER CONSUMPTION

The oven is programmed to consume a level of electrical power that is compatible with a domestic network that has a rating of more than 3 kW (16): If your household

uses a lower power, you will need to decrease this value (13).

Turn the *adjustment knob* to select 16 "High" or 13 "Low" and press ✓ to confirm.

3. SET THE TIME

After selecting the power, you will need to set the current time: The two digits for the hour will flash on the display.

Turn the *adjustment knob* to set the current hour and press ✓ : The two digits for the minutes will flash on the

display. Turn the *adjustment knob* to set the minutes and press ✓ to confirm.

Please note: You may need to set the time again following lengthy power outages. Select "CLOCK" in "SETTINGS" menu, available by turning the *selection knob* on ⚙️.

4. HEAT THE OVEN

A new oven may release odours that have been left behind during manufacturing: this is completely normal.

DAILY USE

1. SELECT A FUNCTION

Turn the *selection knob* to switch on the oven and show the function you require on the display.

To select an item from a menu (the display will show the first available item), turn the *adjustment knob* until the item you require is shown.

The display will show the name of the function and its basic settings: Press ✓ to confirm.

2. SET THE FUNCTION

After having selected the function you require, you can change its settings. The display will show the settings that can be changed in sequence. Pressing ⏪ allows you to change the previous setting again.

TEMPERATURE / GRILL LEVEL

When the value flashes on the display, turn the *adjustment knob* to change it, then press ✓ to confirm and continue to alter the settings that follow (if possible).

Please note: Once the function has been activated, the temperature/grill level can be changed using the *adjustment knob*.

In the same way, it is possible to set the grill level: There are three defined power levels for grilling: 3 (high), 2 (mid), 1 (low).

DURATION

When the ⌚ icon flashes on the display, use the *adjustment knob* to set the cooking time you require and then press ✓ to confirm. You do not have to set the cooking time if you want to manage cooking manually (untimed): Press ▶️ to confirm and start the function. In this case, you cannot set the end cooking time by programming a delayed start.

Before starting to cook food, we therefore recommend heating the oven with it empty in order to remove any possible odours. Remove any protective cardboard or transparent film from the oven and remove any accessories from inside it. Heat the oven to 200 °C for around one hour, ideally using a function with air circulation (e.g. "Forced Air" or "Convection Bake").

Please note: It is advisable to air the room after using the appliance for the first time.

Please note: You can adjust the cooking time that has been set during cooking: press ⏪ to change the settings.

END TIME (START DELAY)

In many functions, once you have set a cooking time you can delay starting the function by programming its end time. The display shows the end time while the ⌚ icon flashes.

Turn the *adjustment knob* to set the time you want cooking to end, then press ✓ to confirm and activate the function.

Place the food in the oven and close the door: The function will start automatically after the period of time that has been calculated in order for cooking to finish at the time you have set.

Please note: Programming a delayed cooking start time will disable the oven preheating phase: The oven will reach the temperature you require gradually, meaning that cooking times will be slightly longer than those listed in the cooking table. During the waiting time, you can use the *adjustment knob* to amend the programmed end time or press ⏪ to change the settings.

. 6th SENSE

These functions automatically select the best cooking mode, temperature and duration to cook, roast or bake all the dishes available.

When required, simply indicate the characteristic of food to obtain an optimal result.

WEIGHT / HEIGHT (ROUND-TRAY-LAYERS)

To set the function correctly, follow the indications on the display, when prompted, and turn the *adjustment knob* to set the required value then press ✓ to confirm.

DONENESS / BROWNING

In some 6th Sense functions it is possible to adjust the doneness level.

When prompted, turn the *adjustment knob* to level desired between rare (-1) and well done (+1). Press ✓ or to confirm and start the function.

In the same way, where allowed, in some 6th Sense functions, it's possible to adjust the browning level between low (-1) and high (+1).

3. ACTIVATE THE FUNCTION

At any time, if the default values are those desired or once you have applied the settings you require, press to activate the function.

During the delay phase, by pressing the oven will ask if you want to skip this phase, starting immediately the function.

Please note: Once cooking has started, the display will recommend the most suitable level for each function.

At any time you can press to stop the function that has been activated.

Please note: If the oven is hot and the function requires a specific maximum temperature, a message will shown on the display. Press to return to previous screen and select a different function or wait for a complete cooling.

4. PREHEATING

Some functions have an oven preheating phase: Once the function has started, the display indicates that the preheating phase has been activated.

Once this phase has finished, an audible signal will sound and the display will indicate that the oven has reached the set temperature, requiring to "ADD FOOD". At this point, open the door, place the food in the oven, close the door and start cooking by pressing ✓ or .

Please note: Placing the food in the oven before preheating has finished may have an adverse effect on the final cooking result. Opening the door during the preheating phase will stop pause it. The cooking time does not include a preheating phase. You can always change the temperature you want the oven to reach using the *adjustment knob*.

5. PAUSE COOKING / TURN OR CHECK FOOD

By opening the door, the cooking will be temporarily paused through deactivating heating elements.

To resume the cooking, close the door.

Some 6th Sense functions will require the food to be turned during cooking.

An audible signal will sound and the display shows the action to be done: Open the door, do the action prompted by the display and close the door, then press

to continue cooking.

In the same way, at 10% of time before the end of cooking, the oven prompts you to check the food.

Check the food, close the door and press or ✓ to continue cooking.

Please note: Press to skip these actions. Otherwise, if no action is done after a certain time the oven will continue the cooking.

6. END OF COOKING

An audible signal will sound and the display will indicate that cooking is complete.

Turn the *adjustment knob* to extend the cooking time by setting a new duration. In both cases, the cooking parameters will be retained.

BROWNING

Some functions of the oven enable you to brown the surface of the food by activating the grill once cooking is complete.

When the display shows the relevant message, if required press ✓ to start a five-minute browning cycle. You can stop the function at any time by pressing or by turning the *selection knob* to "0" to switch the oven off.

. FAVORITE

Once cooking is complete the display will prompt you to save the function in a number between 1 and 10 on your list of favorites.

If you would like to save a function as a favorite and store the current settings for future use, press ✓ otherwise, to ignore the request press . Once ✓ has been pressed, turn the *adjustment knob* to select the number position, then press ✓ to confirm.

Please note: If the memory is full or the number chosen has already been taken, the oven will ask you to confirm overwriting the previous function.

To call up the functions you have saved at a later time, turn the *function knob* to ♥ : The display will show your list of favorite functions.

Turn the *adjustment knob* to select the function, confirm by pressing ✓, and then press ▶ to activate.

. AUTOMATIC CLEANING – PYRO

**Do not touch the oven during the Pyro cycle.
Keep children and animals away from the oven during and after (until the room has finished airing) running the Pyro cycle.**

Remove all accessories - including shelf guides - from the oven before activating the function. If the oven is installed below a hob, make sure that all the burners or electric hotplates are switched off while running the selfcleaning cycle. For optimum cleaning results, remove the worst soiling with a damp sponge before using the Pyro function. We recommend only running the Pyro function if the appliance contains heavy soiling or gives off bad odours during cooking.

Turn the *selection knob* on  to show "Pyro" on the display.

Turn the *adjustment knob* to select the desired cycle, then press ✓ to confirm. Once a cycle has been selected, if desired, turn the *adjustment knob* to set end time (start delay), then press ✓ to confirm.

Clean the door and remove all accessories as prompted, then close the door and press ▶ when done: the oven will begin the self-cleaning cycle, while the door locks automatically: a warning message appears on the display, along with a countdown indicating the status of the cycle in progress.

Once the cycle has been completed, the door remains locked until the temperature inside the oven has returned to a safe level.

. MINUTEMINDER

When the oven is switched off, the display can be used as a timer. To activate this function, make sure that the oven is switched off and turn the *adjustment knob*: The ⌚ icon will flash on the display.

Turn the *adjustment knob* to set the length of time you require and then press ✓ to activate the timer.

An audible signal will sound and the display will indicate once the minuteminder has finished counting down the selected time.

Please note: The minuteminder does not activate any of the cooking cycles. Use the *adjustment knob* to change the time set on the timer.

Once the minuteminder has been activated, you can also select and activate a function. Turn the *selection knob* to switch on the oven and then select the function you require. Once the function has started, the timer will continue to count down independently without interfering with the function itself.

Please note: During this phase, it isn't possible to see the minuteminder (only the ⌚ icon will be displayed), that will continue counting down in background. To retrieve the minuteminder screen turn the *selection knob* to "0" to stop the function that is currently active.

. KEYLOCK

To lock the keypad, press and hold ⏏ for at least five seconds. Do this again to unlock the keypad.

Please note: This function can also be activated during cooking. For safety reasons, the oven can be switched off at any time by turning the *selection knob* to "0".

* Estimated length of time: dishes can be removed from the oven at different times depending on personal preference.

** Turn food halfway through cooking.

*** Turn food two thirds of the way through cooking (if necessary).

HOW TO READ THE COOKING TABLE

The table lists the best function, accessories and level to use to cook different types of food.

Cooking times start from the moment food is placed in the oven, excluding preheating (where required).

Cooking temperatures and times are approximate and depend on the amount of food and the type of accessory used.

Use the lowest recommended settings to begin with and, if the food is not cooked enough, then switch to higher settings.

Use the accessories supplied and preferably darkcoloured metal cake tins and baking trays. You can also use Pyrex or stoneware pans and accessories, but bear in mind that cooking times will be slightly longer.

ACCESSORIES

Wire shelf

Oven tray or cake tin on wire shelf

Drip tray / Baking tray or oven tray on wire shelf

Drip tray / Baking tray

Drip tray with 500 ml of water

CLEANING AND MAINTENANCE

Make sure that the oven has cooled down before carrying out any maintenance or cleaning.
Do not use steam cleaners.

Do not use wire wool, abrasive scourers or abrasive/corrosive cleaning agents, as these could damage the surfaces of the appliance.

Wear protective gloves.
The oven must be disconnected from the mains before carrying out any kind of maintenance work.

EXTERIOR SURFACES

- Clean the surfaces with a damp microfibre cloth. If they are very dirty, add a few drops of pH-neutral detergent. Finish off with a dry cloth.
- Do not use corrosive or abrasive detergents. If any of these products inadvertently comes into contact with the surfaces of the appliance, clean immediately with a damp microfibre cloth.

INTERIOR SURFACES

- After every use, leave the oven to cool and then clean it, preferably while it is still warm, to remove any deposits or stains caused by food residues. To dry any condensation that has formed as a result of cooking foods with a high water content, let the oven to cool completely and then wipe it with a cloth or sponge.

- Clean the glass in the door with a suitable liquid detergent.
- The oven door can be removed to facilitate cleaning.

ACCESSORIES

Soak the accessories in a washing-up liquid solution after use, handling them with oven gloves if they are still hot. Food residues can be removed using a washing-up brush or a sponge.

REPLACING THE LAMP

1. Disconnect the oven from the power supply.
2. Unscrew the cover from the light, replace the bulb and screw the cover back on the light.
3. Reconnect the oven to the power supply.

Please note: Only use 20-40 W/230 ~ V type G9, T300°C halogen bulbs. The bulb used in the product is specifically designed for domestic appliances and is not suitable for general room lighting within the home (EC Regulation 244/2009). Light bulbs are available from our After-sales Service.

- If using halogen bulbs, do not handle them with your bare hands as your fingerprints could cause damage. Do not use the oven until the light cover has been refitted.

REMOVING AND REFITTING THE DOOR

1. To remove the door, open it fully and lower the catches until they are in the unlock position.

2. Close the door as much as you can. Take a firm hold of the door with both hands – do not hold it by the handle. Simply remove the door by continuing to close it while pulling it upwards at the same time until it is released from its seating. Put the door to one side, resting it on a soft surface.

3. Refit the door by moving it towards the oven, aligning the hooks of the hinges with their seating and securing the upper part onto its seating.
4. Lower the door and then open it fully. Lower the catches into their original position: Make sure that you lower them down completely.

Apply gentle pressure to check that the catches are in the correct position.

5. Try closing the door and check to make sure that it lines up with the control panel. If it does not, repeat the steps above: The door could become damaged if it does not work properly.

TROUBLESHOOTING

PROBLEM	POSSIBLE CAUSE	SOLUTION
The oven is not working.	Power cut. Disconnection from the mains.	Check for the presence of mains electrical power and whether the oven is connected to the electricity supply. Turn off the oven and restart it to see if the fault persists.
The display shows the letter "F" followed by a number or letter.	Oven failure.	Contact you nearest Client After-sales Service Centre and state the number following the letter "F".
The oven does not heat up. The function does not start.	"DEMO" mode is running.	Accede "DEMO" from "SETTINGS" and select "Off".
The light switches off.	"ECO" mode is "On".	Accede "ECO" from "SETTINGS" and select "Off".
The door will not open.	Cleaning cycle in progress.	Wait for the function to finish and for the oven to cool down.
