SAFETY INSTRUCTIONS

IMPORTANT TO BE READ AND OBSERVED

Before using the appliance carefully read these safety instructions.

Keep them close at hand for future reference.

These instructions and the appliance itself provide important safety warnings, to be observed at all times.

The manufacturer declines any liability for failure to observe these safety instructions, for inappropriate use of the appliance or incorrect setting of controls.

SAFETY WARNINGS

Very young (0-3 years) and young children (3-8 years) shall be kept away from the appliance unless continuously supervised. Children from 8 years old and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge can use this appliance only if they are supervised or have been given instructions on safe use and understand the hazards involved. Children must not play with the appliance. Cleaning and user maintenance must not be carried out by children without supervision.

PERMITTED USE

CAUTION: The appliance is not intended to be operated by means of an external timer or separate remote controlled system.

This appliance is solely for domestic, not professional use.

Do not use the appliance outdoors.

Do not store explosive or flammable substances such as aerosol cans and do not place or use gasoline or other flammable materials in or near the appliance: a fire may break out if the appliance is inadvertently switched on.

This appliance is intended to be used in household and similar applications such as:

- staff kitchen areas in shops, offices and other working environments;
- farm houses;
- by clients in hotels, motels and other residential type environments;
- bed and breakfast type environments.

The appliance must be used only to wash domestic crockery in accordance with the instructions in this manual.

The water supply tap must be shut off and the plug should be removed from the electrical socket at the end of every cycle and before cleaning the appliance or carrying out any maintenance work.

Disconnect also the appliance in the event of any malfunction.

INSTALLATION

The appliance must be handled and installed by two or more persons.

Use protective gloves to unpack and install the appliance.

Installation and repairs must be carried out by a qualified technician, in compliance with the manufacturer's instructions and local safety regulations. Do not repair or replace any part of the appliance unless specifically stated in the user manual.

Children should not perform installation operations. Keep children away during installation. Keep the packaging materials (plastic bags, polystyrene parts, etc.) out of reach of children, during and after the installation.

After unpacking the appliance, make sure that it has not been damaged during transport. In the event of problems, contact the dealer or your nearest After-sales Service.

The appliance must be disconnected from the power supply before any installation operation.

During installation, make sure the appliance does not damage the power cable.

Only activate the appliance when the installation has been completed.

Connection to the mains water supply must be carried out by a qualified technician in compliance with the manufacturers instructions and applicable local safety regulations.

The appliance is to be connected to the water mains using new hose sets. The old hose-sets should not be reused.

All hoses must be securely clamped to prevent them coming loose during operation.

All local waterboard regulations must be complied with. Water supply pressure 0.05 - 1.0 MPa.

The inlet water temperature depends on the dishwasher model. If the installed inlet hose is marked "25°C max", the maximum allowed water temperature is 25°C. For all other models the maximum allowed water temperature is 60°C.

Do not cut hoses and, in the case of appliances fitted with a waterstop system, do not immerse the plastic casing containing the inlet hose in water.

If hoses are not long enough, contact your local dealer.

Make sure the inlet and drain hoses are kink-free and are not crushed. Before using the appliance for the first time, check the water inlet and drain hose for leaks.

During use, the access to the rear wall should be limited in a sustainable manner such as approaching the device to the wall or furniture board.

When installing the appliance make sure that the four feet are stable and resting on the floor, adjusting them as required, and check that the appliance is perfectly levelled using a spirit level.

If installing the appliance at the end of a row of units making the side panel accessible, the hinge area must be covered to prevent risk of crushing.

For dishwashers having ventilation openings in the base, the openings must not be obstructed by a carpet.

ELECTRICAL WARNINGS

For installation to comply with current safety regulations, an omnipolar switch with minimum contact gap of 3mm is required and the appliance must be earthed.

If the power cable is damaged, replace with an identical one. The power cable must only be replaced by a qualified technician in compliance with the manufacturer instruction and current safety regulations. Contact an authorized service centre. If the fitted plug is not suitable for your socket outlet, contact a qualified technician.

The power cable must be long enough to connect the appliance, once fitted in its housing, to the main power supply. Do not pull the power supply cable.

Do not use extension leads, multiple sockets or adapters. Do not operate this appliance if it has a damaged mains cord or plug, if it is not working properly, or if it has been damaged or dropped. Keep the cord away from hot surfaces. The electrical components must not be accessible to the user after installation. Do not touch the appliance with any wet part of the body and do not operate it when barefoot.

ELECTRICAL CONNECTION FOR GREAT BRITAIN AND IRELAND ONLY

Fuse replacement.

If the mains lead of this appliance is fitted with a BS 1363A 13amp fused plug, to change a fuse in this type of plug use an A.S.T.A. approved fuse to BS1362 type and proceed as follows:

1. Remove the fuse cover (A) and fuse (B).
2. Fit replacement 13A fuse into fuse cover.
3. Refit both into plug.

Important:

The fuse cover must be refitted when changing a fuse and if the fuse cover is lost the plug must not be used until a correct replacement is fitted.

Correct replacement are identified by the colour insert or the colour embossed in words on the base of the plug. Replacement fuse covers are available from your local electrical store.

For the Republic of Ireland only

The information given in respect of Great Britain will frequently apply, but a third type of plug and socket is also used, the 2-pin, side earth type.

Socket outlet / plug (valid for both countries)

If the fitted plug is not suitable for your socket outlet, please contact After-sales Service for further instruction. Please do not attempt to change plug yourself. This procedure needs to be carried out by a qualified technician in compliance with the manufactures instructions and current standard safety regulations.

CORRECT USE

The water in the dishwasher is not potable.

The maximum number of place settings is shown in the product sheet.

The door should not be left in the open position since this could present a tripping hazard.

The open dishwasher door can only support the weight of the loaded rack when pulled out.

Do not rest objects on the door or sit or stand on it.

Use only detergent and rinse additives designed for an automatic dishwasher.

WARNING: Dishwasher detergents are strongly alkaline. They can be extremely dangerous if swallowed.

Avoid contact with the skin and eyes and keep children away from the dishwasher when the door is open.

Check that the detergent receptacle is empty after completion of the wash cycle.

Store the detergent, rinse aid and salt out of reach of children.

WARNING: Knives and other utensils with sharp points must be loaded in the basket with their points down or placed in a horizontal position.

The water supply tap must be shut off and the plug should be removed from the electrical socket at the end of every program and before cleaning the dishwasher or carrying out any maintenance work.

Disconnect also the dishwasher in the event of any malfunction.

CLEANING AND MAINTENANCE

Never use steam cleaning equipment.

Wear protective gloves for cleaning and maintenance.

The appliance must be disconnected from the power supply before any maintenance operation.

SAFEGUARDING THE ENVIRONMENT

DISPOSAL OF PACKAGING MATERIALS

The packaging material is 100% recyclable and is marked with the recycle symbol:

The various parts of the packaging must therefore be disposed of responsibly and in full compliance with local authority regulations governing waste disposal.

SCRAPPING OF HOUSEHOLD APPLIANCES

When scrapping the appliance, make it unusable by cutting off the power cable and removing the doors and shelves (if present) so that children cannot easily climb inside and become trapped.

This appliance is manufactured with recyclable  or reusable materials. Dispose of it in accordance with local waste disposal regulations.

For further information on the treatment, recovery and recycling of household electrical appliances, contact your competent local authority, the collection service for household waste or the store where you purchase the appliance.

This appliance is marked in compliance with European Directive 2012/19/EU, Waste Electrical and Electronic Equipment (WEEE).

By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product.

The symbol  on the product or on the accompanying documentation indicates that it should not be treated as domestic waste but must be taken to an appropriate collection centre for the recycling of electrical and electronic equipment.

DECLARATION OF CONFORMITY

This appliance has been designed, constructed and distributed in compliance with the requirements of European Directives: LVD 2014/35/EU, EMC 2014/30/EU and RoHS 2011/65/EU.

This appliance has been designed, constructed and distributed in compliance with the Ecodesign and energy Labelling Requirements of EC Directives: 2009/125/EC and 2010/30/EU.

FOR THE WAY IT'S MADE.
