

DIMENSION		MEASURE		DIMENSION		MEASURE	
APPLIANCE				Indicates whether a protection tray against heat or contact is needed with oven. Default is "N"		No	
Product width		590	mm	Indicates whether a ventilation opening in the back side of cabinet is needed or not with oven. Default is "Y"		Yes	
Product depth		510	mm	Indicates the position of the opening in the back side of the cabinet with oven		Top	
Radius of product corner		2	mm	MIN Width of rear opening required with oven		550	mm
Product height (MAX protrusion from the worktop)		4	mm	MIN Depth of rear opening required with oven.		45	mm
Underneath the bearing area of the appliance		50	mm	MIN AREA of rear opening required with oven		247.5	cm²
Distance between cut out and top frontal projection		15	mm	MIN distance from cabinet to rear wall, with oven		20	mm
Distance between cut out and top lateral projection		15	mm	Indicates whether a ventilation opening in the top front side of cabinet is needed or not with oven. Default is "N"		No	
Plateau thickness		4	mm	MIN Frontal gap required, with oven (2)		0	mm
Gas outlet positioning		N/A		MIN frontal opening area required with oven		0	cm²
Gas outlet X positioning		0	mm	WITH CABINET			
Gas outlet Y positioning		0	mm	MIN worktop thickness with cabinet		12	mm
Power cable		With product		MAX worktop thickness with cabinet		0	mm
Power cable positioning		Rear left		Indicates whether a protection tray against heat or contact is needed. Default is "Y"		Yes	
CUT OUT				MIN distance from bottom line of appliance to protection tray		10	mm
MIN front distance from cut-out to end worktop		0	mm	Indicates whether a ventilation opening in the tray is needed or not with cabinet		Yes	
MIN rear distance from cut out to wall/furniture		35	mm	Recess dimension X		90	mm
MIN lateral distance from cut out to wall/furniture		100	mm	Recess dimension Y		120	mm
MIN height from worktop to above furniture		400	mm	Positioning dimension X by axis		45	mm
MIN cut out width		560	mm	Distance of the tray from the back panel/wall		60	mm
MAX cut out width		562	mm	Indicates whether a divider is available		Service accessory	
MIN cut out depth		480	mm	Indicates whether a ventilation opening in the back side of cabinet is needed or not. Default is "Y"		Yes	
MAX cut out depth		492	mm	Indicates the position of the opening in the back side of the cabinet.		Top	
MIN cut out radius		0	mm	MIN Width of rear opening of the cabinet		550	mm
MAX cut out radius		10	mm	MIN Depth of rear opening of the cabinet		45	mm
FLUSH INSTALLATION				MIN AREA of rear opening of the cabinet		247.5	cm²
Indicates whether a flush installation is possible. Default is "N"		No		MIN distance from cabinet to rear wall		20	mm
MIN Milling rabbet width		0	mm	Indicates whether a ventilation opening in the top front side of cabinet is needed or not. Default is "N"		No	
MAX Milling rabbet width		0	mm	MIN Frontal gap of the cabinet		0	mm
MIN Milling rabbet depth		0	mm	MIN frontal opening area of the cabinet		0	cm²
MAX Milling rabbet depth		0	mm	INSTALLATION SPACE			
Milling rabbet thickness		0	mm	Depth of immersion underneath the appliance		0	mm
Radius milling rabbet		0	mm	Width protruding area below bottom box		0	mm
Flush installation KIT (2)		N/A		Depth protruding area below bottom box		0	mm
Indicates the minum worktop thickness with standard installation for gas		0	mm	Protruding area: X positioning		0	mm
Indicates the maximum worktop thickness with standard installation for gas		0	mm	Protruding area: Y positioning		0	mm
Indicates the minum worktop thickness with flush installation for gas		0	mm	ACCESSORIES FOR INSTALLATION			
Indicates the maximum worktop thickness with flush installation for gas		0	mm	Gasket		Pre assembled	
WITH OVEN							
Indicates whether the cooktop can be installed above oven. Default is "Y"		Yes					
MIN worktop thickness with oven		28	mm				
MAX worktop thickness with oven		0	mm				

DIMENSION		MEASURE	
Clips	Separate KIT		
Injector KIT	N/A		
Elbow KIT	N/A		
COOKTOP HOOD INSTALLATION ONLY FOR GAS			
MIN distance from cooktop to above furniture	0		mm
MIN distance between cabinets above the cooktop	0		mm
MAX distance between cabinets above the cooktop	0		mm
