### THANK YOU FOR PURCHASING AN HOTPOINT PRODUCT

To receive more comprehensive help and support, please register your product at www.hotpoint.eu/register

You can download the Safety Instructions and the Use and Care Guide by visiting our website www.hotpoint.eu and following

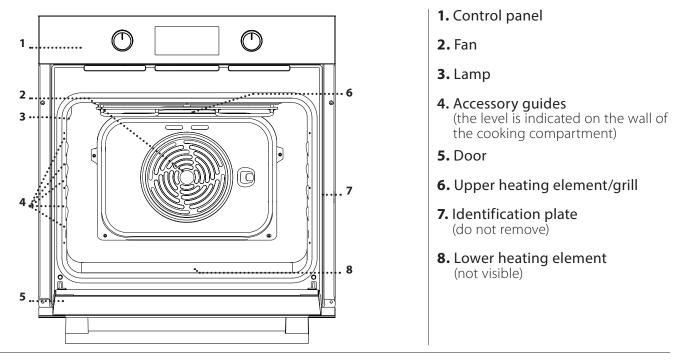

the instructions on the back of this booklet.

FN

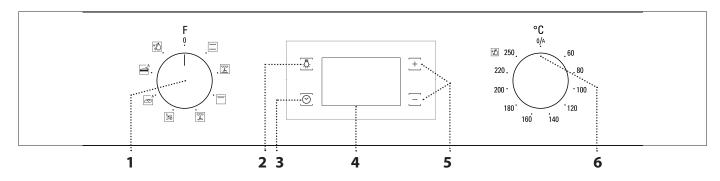

## Before using the appliance carefully read the Health and Safety guide.

## **PRODUCT DESCRIPTION**

### **CONTROL PANEL**

### **1. SELECTION KNOB**

For switching the oven on by selecting a function. Turn to the 0 position to switch the oven off.

### 2. LIGHT

With the oven switched on, press to turn the oven compartment lamp on or off.

#### **3. SETTING THE TIME**

For accessing the cooking time settings, delayed start and timer. For displaying the time when the oven is off.

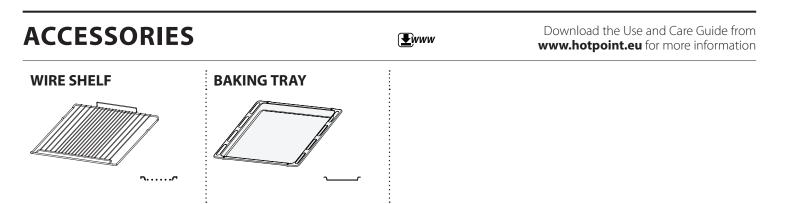

#### 4. DISPLAY

### **5. ADJUSTMENT BUTTONS**

For changing the cooking time settings.

### **6. THERMOSTAT KNOB**

Turn to select the temperature you require when activating manual functions. Automatic functions use 0/A.

The number of accessories may vary depending on which model is purchased. Other accessories can be purchased separately from the After-sales Service.

#### **INSERTING THE WIRE SHELF AND OTHER** ACCESSORIES

. Insert the wire shelf onto the level you require by holding it tilted slightly upwards and resting the raised rear side (pointing upwards) down first. Then slide it horizontally along the runners as far as possible.

## **FUNCTIONS**

**Www** 

runners.

Download the Use and Care Guide from www.hotpoint.eu for more information

## CONVENTIONAL\*

For cooking any kind of dish on one shelf only.

### **CONVECTION BAKE**

For cooking on a maximum of two shelves at the same time. It is a good idea to swap the position of the baking trays halfway through cooking.

#### $\overline{}$ GRILL

For grilling steaks, kebabs and sausages, cooking vegetables au gratin or toasting bread. When grilling meat, we recommend using a drip tray to collect the cooking juices: Position the pan on any of the levels below the wire shelf and add 200 ml of drinking water.

## **TURBO GRILL**

L For roasting large joints of meat (legs, roast beef, chicken). We recommend using a drip tray to collect the cooking juices: Position the pan on any of the levels below the wire shelf and add 200 ml of drinking water.

### **ECO CONVECTION BAKE\***

æ For cooking roasts and stuffed roasting joints on a single shelf. Food is prevented from drying out excessively by gentle, intermittent air circulation. When this ECO function is in use, the light will remain switched off during cooking but can be switched on again by pressing 5.

## A BREAD AUTO

This function automatically selects the ideal temperature and baking time for bread. For best results, carefully follow the recipe **www**. Activate the function when the oven is cold.

## A DESSERTS AUTO

This function automatically selects the ideal temperature and baking time for cakes. Activate the function when the oven is cold.

. Other accessories, like the baking tray, are to be

inserted horizontally, letting them slide on the

### **DIAMOND CLEAN**

m 'I The action of the steam released during this special low-temperature cleaning cycle allows dirt and food residues to be removed with ease. Pour 200 ml of drinking water on the bottom of the oven and only activate the function when the oven is cold.

\* Function used as reference for the energy efficiency declaration in accordance with Regulation (EU) No. 65/2014

## USING THE APPLIANCE FOR THE FIRST TIME

## **1. SETTING THE TIME**

You will need to set the time when you switch on the appliance for the first time: Press O until the O icon and the two digits for the hour start flashing on the display.

Use  $\underline{+}$  or  $\underline{-}$  to set the hour and press  $\underline{\bigcirc}$  to confirm. The two digits for the minutes will start flashing. Use  $\underline{+}$  or  $\underline{-}$  to set the minutes and press  $\underline{\bigcirc}$  to confirm.

Please note: When the 🕑 icon is flashing, for example following lengthy power outages, you will need to reset the time.

## **2.** HEATING THE OVEN

A new oven may release odours that have been left behind during manufacturing: This is completely normal.

Before starting to cook food, we therefore recommend heating the oven with it empty in order to remove any possible odours.

Remove any protective cardboard or transparent film from the oven and remove any accessories from inside it.

Heat the oven to 250 °C for about one hour, preferably using the "Convection Bake" function. The oven must be empty during this time. Follow the instructions for setting the function correctly.

Please note: It is advisable to air the room after using the appliance for the first time.

## DAILY USE

## **1. SELECT A FUNCTION**

To select a function, turn the *selection knob* to the symbol for the function you require: The display will light up and an audible signal will sound.

## **2.** ACTIVATE A FUNCTION

MANUAL

To start the function you have selected, turn the *thermostat knob* to set the temperature you require.

Please note: During cooking you can change the function by turning the *selection knob* or adjust the temperature by turning the *thermostat knob*.

The function will only start if the thermostat knob is on 0 °C. You can set the cooking time, cooking end time (only if you set a cooking time) and a timer.

## AUTOMATIC

To start the automatic function you have selected ("Bread" or "Cakes"), keep the *thermostat knob* at the position for automatic functions (0/A).

To finish cooking, turn the *selection knob* to position 0.

Please note: You can set the cooking end time and timer.

## **3.** PREHEATING

Once the function starts, an audible signal and a flashing icon for on the display indicate that the preheating phase has been activated. At the end of this phase, an audible signal and the fixed icon for on the display will indicate that the oven has reached the set temperature: At this point, place the food inside and proceed with cooking.

Please note: Placing the food in the oven before preheating has finished may have an adverse effect on the final cooking result.

### . PROGRAMMING COOKING

You will need to select a function before you can start programming cooking.

## DURATION

Keep pressing 🕑 until the 🔅 icon and "00:00" start flashing on the display.

Use  $\pm$  or  $\equiv$  to set the cooking time you require, then press  $\odot$  to confirm.

Activate the function by turning the *thermostat knob* to the temperature you require: An audible signal will sound and the display will indicate that cooking is complete.

Please note: To cancel the cooking time you have set, keep pressing 🙆 until the 🔅 icon starts flashing on the display, then use - to reset the cooking time to "00:00". This cooking time includes a preheating phase.

## PROGRAMMING THE END COOKING TIME/DELAYED START

After a cooking time has been set, starting the function can be delayed by programming its end time: Press  $\bigcirc$  until the  $\bigoplus$  icon and the current time start flashing on the display.

Use  $\stackrel{+}{=}$  or  $\stackrel{-}{=}$  to set the time you want cooking to end and press  $\bigcirc$  to confirm. Activate the function by turning the *thermostat knob* 

Activate the function by turning the *thermostat knob* to the temperature you require: The function will remain paused until it starts automatically after the period of time that has been calculated in order for cooking to finish at the time you have set.

Please note: To cancel the setting, switch the oven off by turning the **selection knob** to position " 0 ".

### END OF COOKING

An audible signal will sound and the display will indicate that the function has finished.

Turn the *selection knob* to select a different function or to position " 0 " to switch the oven off.

Please note: If the timer is active, the display will show "END" alternately with the remaining time.

## . SETTING THE TIMER

This option does not interrupt or program cooking but allows you to use the display as a timer, either during while a function is active or when the oven is off.

Keep pressing  $\bigcirc$  until the  $\bigotimes$  icon and "00:00" start flashing on the display.

Use  $\pm$  or  $\equiv$  to set the time you require and press  $\odot$  to confirm.

An audible signal will sound once the timer has finished counting down the selected time.

Please note: To cancel the timer, keep pressing 💇 until the 🚱 icon starts flashing, then use 🗕 to reset the time to "00:00".

## . DIAMOND CLEAN FUNCTION

To activate the "Diamond Clean" cleaning function, pour 200 ml of drinking water into the bottom of the oven, then turn the *selection knob* and the *thermostat knob* to the 🕄 icon.

Please note: The position of the icon does not correspond to the temperature reached during the cleaning cycle.

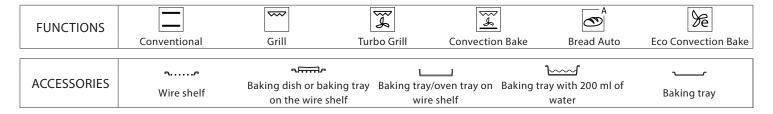

The function will activate automatically: The display shows the time remaining to the end, alternating with "DC".

Please note: It is only possible to programme the end time of this function. The duration is automatically set to 35 minutes.

## **USEFUL TIPS**

#### HOW TO READ THE COOKING TABLE

The table lists the best function, accessories and level to use to cook various different types of food. Cooking times start from the moment food is placed in the oven, excluding preheating (where required). Cooking temperatures and times are approximate and depend on the amount of food and the type of accessory used. Use the lowest recommended settings to begin with and, if the food is not cooked enough, then switch to higher settings. Use the accessories supplied and preferably dark-coloured metal cake tins and baking trays. You can also use Pyrex or stoneware pans and accessories, but bear in mind that cooking times will be slightly longer.

### COOKING DIFFERENT FOODS AT THE SAME TIME

The "Convection Bake" function enables you to cook different foods (such as fish and vegetables) on different shelves at the same time. Remove the food which requires a shorter cooking time and leave the food which requires a longer cooking time in the oven.

#### BREAD AUTO FUNCTION

For best results you should carefully follow the instructions, using the recipe for mixing 1000 g of dough: 600 g of flour, 360 g of water, 11 g of salt, 25 g of fresh yeast (or two packets of yeast powder).

For optimal rising, allow about 90 minutes at room temperature.

Put the dough into the (cold) oven, pour 100 cc of cold drinking water on to the bottom of the oven and activate the "Bread Auto" function. After cooking, leave the dough to stand on a wire shelf until completely cooled.
